

# INFINITE EXPEDITION

Welcome to the Infinite Expeditions. What is it all about?

It's all about finding Gems. The team with the most Gems in their bank account at the end of the game will be the victorious team.

There are **4 sections** to the game these **4 sections** will run simultaneously in no specific order.

**Section 1: Navigation section** – alpha numeric code cards are placed out all around the property. Team's task is to find these code cards via GPS. And use the information from these cards to claim Gems from the claims office.

**Section 2: Observation** – Photographs have been taken all around the property. Team's task is to locate these areas and photograph them as well. Photos to be presented at Reward office for Gems.

**Section 3: Scavenger hunt** – actual Gems (pebbles) have been hidden in the surrounding area. Only guidelines are cryptic clues. (First come first serve)

**Section 4: Information office** – Additional information will be handed out at specified times during the game to earn more Gems.

**2 stations** will be manned by facilitators in the game.

**Reward office** – Claiming Gems for information

**Bank** – bank Gems

And off course the winning team.
